EPIGENETICS – THE FUTURE OF COSMETIC SCIENCE

Epigenetics is the science that explores mechanisms behind the regulation of gene activity. Discoveries in this field have taken the cosmetic world by storm. These mechanisms consist of a series of biological processes that involve the “activation” or “deactivation” of certain genes without changing their sequence. The best examples here to illustrate this relationship are identical twins – even though they have the same DNA, during their lifetime, they can develop individual characteristics due to different environmental factors. Epigenetic changes are influenced by

L.C.G.S MC 8.0

– A STEP TOWARDS ETERNAL YOUTH

The unique complex formula, L.C.G.S MC 8.0, contained in our face creams (day, night and eye creams) has been developed using the latest research in the field of epigenetics, specifically to meet the needs of FM WORLD. It affects the synthesis of two key proteins which are responsible for looking young. These are fibronectin, which fills the intercellular structure of the skin by interacting with collagen and proteoglycans, as well as p53 proteins, which are involved in the process of DNA renewal. Thanks to this, the formula has strong anti-ageing properties, regenerating and smoothing the skin. In addition, **L.C.G.S MC 8.0** reduces the negative effects of electromagnetic radiation, which include UV radiation and blue light. It also has a great effect on the regeneration of the epidermis and effectively protects against oxidative stress.

L.C.G.S MC 4.0

– INNOVATION IN THE WORLD OF COSMETICS

The revolutionary complex formula **L.C.G.S MC 4.0**, carefully selected for FM WORLD and contained in the ANTI-AGING ELIXIR FACE SERUM, has strong anti-ageing properties. It intensively regenerates and smooths your complexion, perfectly preparing your skin for application of further cosmetics and increasing their effect through synergy.

OUR UTIQUE CREAMS CONTAIN REVOLUTIONARY COMPLEX FORMULAS WHICH HAVE BEEN SPECIFICALLY SELECTED FOR FM WORLD

environmental pollution and lifestyle (diet, stress, physical activity). These factors can affect the condition of the genes which help us look young. Thanks to epigenetics, you can influence the processes that are responsible for regulating the condition of your skin. Using this knowledge, we have created unique complex formulas: **L.C.G.S MC 8.0** and **L.C.G.S MC 4.0**, which slow down the skin ageing process by influencing the related genes. In addition, we have also developed formulas which offer you an alternative to aesthetic medical treatments: **VOLUMENIC PLUS MC 12.0** and **SLIMENUM ULTRA3 MC 16.0**.

VOLUMENIC PLUS MC 12.0 – COSMETIC BREAST LIPOFILLING

To meet the desires of contemporary women who dream of having alluring, firm and fuller breasts, we have enriched our **ULTRA FIRMING BUST CREAM** with a unique complex formula created exclusively for FM WORLD – **Volumenic Plus MC 12.0**. Inspired by Chinese and Far Eastern medicine, it stimulates the process of differentiating and maturing fat cells and supports the process of lipid storage. The effect is so-called "cosmetic lipofilling", which increases the volume of the breast fat tissue, making it a great alternative to aesthetic medical treatments.

SLIMENUM ULTRA³ MC 16.0 – THE BODY SHAPING EXPERT

We are never one to compromise – our only focus is effective results. This is why, specifically for FM WORLD, top-class specialists have combined the highest-quality raw materials and used next-generation technologies to create the ground-breaking complex formula **Slimenum Ultra³ MC 16.0**. This highly specialized formula, contained in the **FIRMING COMPLEX BODY CREAM**, helps to reduce the volume of accumulated body fat, visibly slimming your figure and minimizing skin irregularities. This means that the cream is able to shape your body, producing results similar to those of ultrasound procedures.

REVOLUTIONARY INGREDIENTS WHICH PENETRATE YOUR SKIN WHILE YOU SLEEP:

- ▶ **L.C.G.S MC 8.0** – the cream's carefully designed formula contains our innovative complex, developed using epigenetic research and specially selected for FM WORLD. It affects the synthesis of two key proteins which are responsible for looking young: fibronectin, which interacts with collagen and proteoglycans, and the p53 proteins involved in the process of DNA renewal. Thanks to this, the formula has strong anti-ageing properties, regenerating and smoothing the skin.
- ▶ **The latest, gentler generation of vitamin A derivative** is currently one of the most effective anti-wrinkle agents, which gently brightens the skin and works effectively to improve its appearance.
- ▶ **Extracts from the meristem of the edelweiss flower** counter the effects of oxidative stress caused by air pollution and UV radiation. In addition, they also have a strong lifting effect on the loose skin around the neck, visually lifting the cheeks and smoothing out "crow's feet". Thanks to these features, your complexion will never again look grey and tired, while your skin will be brilliantly firm and become more resistant to the negative effects of external factors that contribute to ageing.
- ▶ **Shea butter** – this is made using oil from the seeds of the African shea tree, which is considered sacred in Africa, having been an object of reverence there for thousands of years. It keeps your skin feeling perfectly soft and moisturised.

While you rest in your sleep, the **carefully selected ingredients penetrate your skin to make it smooth and radiant like never before**. To enhance the effects of this treatment, we recommend using it together with the ANTI-AGING ELIXIR FACE SERUM and ROYAL PERFECTION DAY CREAM from the UTIQUE series.

They say that the eyes are the window to the soul. Don't let small imperfections in your skin eclipse your inner glow – that your eyes reflect like the purest of diamonds. The innovative formula contained in the **EYE CREAM COMPLEX** perfectly moisturises your skin, making it more elastic and visibly smoothing out wrinkles, while also brightening unsightly dark circles under the eyes. EYE CREAM COMPLEX

EYE CREAM COMPLEX

This perfect composition of highest-quality raw materials perfectly firms and moisturises the delicate skin around the eyes. The cream gently brightens unsightly dark circles under the eyes, leaving the skin tight and extremely refreshed. The phenomenal correlation of ingredients – the unique complex formula **L.C.G.S MC 8.0**, **caffeine**, **low-molecular-weight hyaluronic acid** and **Albizia julibrissin extract** and **darutoside** – visually smooths out "crow's feet" and reduces puffiness of the upper eyelids, noticeably restoring their smooth appearance. **EYE CREAM COMPLEX** will help your complexion appear more radiant than ever before.

THE IDEAL COMPOSITION OF INNOVATIVE INGREDIENTS THAT WILL TAKE PERFECT CARE OF THE DELICATE SKIN AROUND THE EYES:

- ▶ **L.C.G.S MC 8.0** – UV radiation and blue light have adverse effects on the sensitive skin around the eyes – they lead to oxidative stress and also contribute to the formation of expression lines, which can be caused by excessive squinting, for example. This is why our cream has been enriched with a complex formula created using epigenetic mechanisms – **L.C.G.S MC 8.0**. It works in two ways: it reduces the negative effects of electromagnetic radiation and also supports the regeneration and smoothing of the skin, delaying the ageing process.
- ▶ **Albizia julibrissin extract and darutoside complex** – this formula stimulates collagen synthesis and has a positive impact on the process of skin regeneration, visually smoothing out "crow's feet". In addition, it reduces puffiness of the upper eyelids, noticeably restoring their smooth appearance.
- ▶ **Low-molecular-weight hyaluronic acid** – deeply penetrates the skin, allowing it to improve the skin's firmness and elasticity.
- ▶ **Cyclic peptide and ectoine** – deeply moisturise and visibly reduce wrinkles, increasing skin firmness.
- ▶ **Caffeine** – stimulates microcirculation, gently brightening unsightly dark circles under the eyes.

Apply a small amount of the cream to the skin around the eyes using your fingertips. Use every morning and evening to **perfectly firm the delicate skin around your eyes and visually smooth out "crow's feet"**.

THE IDEAL COMBINATION OF PERFECTLY SELECTED INGREDIENTS:

- **inca inchi oil** – obtained by cold pressing the nuts of the sacha inchi plant that grows in the Peruvian jungle. It contains more unsaturated fatty acids than any other known natural vegetable oil. It is also a source of antioxidants (vitamins A and E). Thanks to this, it helps to perfectly elasticize and firm the skin, stimulating collagen production, visually smoothing wrinkles and slowing their formation
- **algae extract** – a real treasure from the deep sea, an invaluable source of easily digestible macro and micronutrients and vitamins. One of the most valuable advantages of algae is that the ingredients they contain are very easily absorbed by the lipid layer of the epidermis, and they therefore offer a deeply nourishing, regenerating and moisturising effect for the complexion
- **antioxidants** – a vitamin C derivative and vitamin E acetate – neutralize free radicals, which have been recognized for years as one of the causes of premature skin ageing. Thanks to these features, they work effectively to slow down the formation of wrinkles
- **bisabolol** – the most important active substance taken from the chamomile flower, it produces a unique soothing effect, relieving skin irritation. In addition, it has anti-inflammatory properties and supports the regeneration of the epidermis

FONTAINAVIE

1

ACTIVE PORTION OF THE TIBETAN RHUBARB ROOT

– this is a technologically advanced ingredient that has a multi-level action effect on the skin, excellently stimulating its natural moisturising mechanisms. It supports intensive regeneration and renewal of the lipid barrier, meaning that it effectively protects the skin against dehydration and negative external factors. In addition, it perfectly regulates the natural process of skin flaking, contributing to the visible improvement of the skin tone and restoring its glow and radiant appearance.

2

BLUE AGAVE LEAF EXTRACT

– a unique, extremely effective anti-ageing substance. It creates a network of polysaccharides on the skin surface, which act on the skin in two ways –producing a noticeable lifting effect, immediately tightening and firming the skin, as well as perfectly filling wrinkles, successfully reducing their appearance, even after the first application.

3

BETAINE

– a highly purified substance found naturally in plants. Thanks to the latest technologies, it is used in cosmetics to very effectively moisturise and regulate the water balance of the skin cells. Due to its unique structure, it effectively strengthens the lipid barrier of the skin, preventing excessive loss of water through the epidermis, and perfectly protecting it from dehydration and irritation.

Each **FONTAINAVIE** cream from the **SILVER IMPULSE**, **GOLDEN BLISS** and **CAVIAR REVIVAL** series has been enriched with **3 innovative ingredients**. The new formulation guarantees even more effective results.

Thanks to our use of innovative technologies, the dream of having firm, smooth and eternally young skin is now within your reach. This is why we are constantly researching and improving the formulas behind our specialist cosmetics, to be able to offer you the most effective anti-ageing treatment available on the market.

NATURAL VITALITY

***Tribulus terrestris** is a unique plant used in Chinese and Indian medicine for thousands years. It is particularly appreciated for its body strengthening properties and especially important for men because it regulates testosterone synthesis with the body by which it contributes to an increased libido and intensification of sexual experiences. Tribulus terrestris extract is an herbal extract which has a beneficial effect on the entire body.

MEN'S ALLY

Testosterone is one of the key male hormones. It plays a vital role in various bodily functions. Not only does it increase the sexual drive, but also it affects the growth of muscle mass and strengthens bones. A testosterone shortage results in a diminished libido, reduced muscle and skeletal mass and even lowers the mood and ability to concentrate. In order to provide a suitable amount of nutritive components to the body, it is vital to understand what it needs. The **VITAMINS FOR HIM** composition design was a lengthy and diligent process so that the resulting preparation could satisfy the male demand for vitamins and minerals to the best possible extent. Thanks to VITAMINS FOR HIM men can now enjoy an excellent bodily condition and a full sexual life.

THE BEST SUPPLEMENT TO CATER FOR ALL MALE NEEDS:

- modern preparation containing high-quality nutritive components carefully selected to match male's needs
- perfect composition of vitamins and minerals boosting physical and intellectual fitness
- natural *Tribulus terrestris* extract regulates testosterone level, increases libido, releases desire and has a beneficial effect on sexual performance
- supplement which supports vitality, the proper functioning of our body and increased physical strength

VITALITY BOOST & MAGNESIUM POWER

Thanks to the convenient, liquid form of the product, the body absorbs all the ingredients very quickly. In addition, **VITALITY BOOST & MAGNESIUM POWER** has a delicious, refreshing flavour, which makes the product not only beneficial for the body but turns using it into a sweet pleasure. It is an injection in a liquid form.

COMPREHENSIVE DOSE OF ENERGY IN TWO STEPS

1.

NUTRICODE VITALITY BOOST – *a nutritive injection*

*Drink one serving of **VITALITY BOOST** daily.*

During an intensive day at work, at University or during an exhausting physical activity, the overtired body uses up its energy resources. Therefore, our well-being is reduced – we feel tired, exhausted and drowsy. Thanks to guarana and green tea extracts, **NUTRICODE VITALITY BOOST** perfectly stimulates the body for further action. Nutritive ingredients contained in the product regulate the functioning of the nervous and muscular system, restore concentration and improve mood.

- **guarana extract** contains a substantial amount of **caffeine**, which has a beneficial effect in the case of physical and mental exhaustion, boosts energy, eliminates drowsiness and tiredness, improves concentration and memory
- **niacin, pantothenic acid, and riboflavin** are responsible for the proper functioning of the nervous system – they manage the body's energy, alleviating nervous stress, have a positive effect on mood and mental performance
- **green tea extract** is a natural anti-oxidant supporting the body's fight with free radicals

2.

NUTRICODE MAGNESIUM POWER – *ideal balance*

*Two hours after drinking **VITALITY BOOST**, take 1 dose of **MAGNESIUM POWER***

Magnesium governs the proper functioning of nearly all of the body's systems. It is also responsible for a proper electrolyte balance. Taking care of it is particularly important during the increased physical or mental effort when we drink plenty of coffee, tea, or just water. It leads to washing away of valuable minerals. Due to a considerable amount of highly-absorbed magnesium, **NUTRICODE MAGNESIUM POWER** compensates the electrolyte level while maintaining proper energy management.

- **magnesium** is responsible for maintaining the electrolyte balance of the body, supports it during physical and mental effort, is responsible for the proper functioning of the nervous and cardiovascular system as well as monitors proper muscular work
- **vitamin B6** is an ally of magnesium – it boosts its absorption and also supports psychological functions and is responsible for proper energy metabolism in our body

VITALITY BOOST & MAGNESIUM POWER

This is an innovative dietary supplement consisting of six containers full of vitality and energy. The liquid form enables the best absorption and almost immediate action of the product. **VITALITY BOOST** is an injection of nutritive ingredients which prevent exhaustion of the body, while **MAGNESIUM POWER** supplements the body with magnesium, which is extremely important for the proper functioning of the nervous, cardiovascular and muscle system.

The composition of **VITALITY BOOST & MAGNESIUM POWER** was designed so as to ensure that the ingredients supplement and reinforce their properties.

*Drink one dose of **Vitality Boost** immediately after opening, and drink one **Magnesium Power** around two hours later, to compensate the magnesium level.*

**NEW COMPOSITION
ASPARTAME FREE**

GLUCOMANNAN – APPETITE KILLER

Glucomannan is a dietary fibre soluble in water, extracted from the *Amorphophallus Konjac* plant. As it expands in stomach, glucomannan fills it and as a result sends a signal to the satiety centre, in the hypothalamus of your brain, that you are not hungry. This helps to cut the number and size of meals. Research shows that the use of glucomannan, along with a reduced calorie diet, decreases body weight in overweight people by an average of 3 kg per month¹. For glucomannan to do its job, make sure that you take the tablets with plenty of water.
