## RUBY SOLID PARFUM RUBY SOLID PARFUM | 20 g | 502029

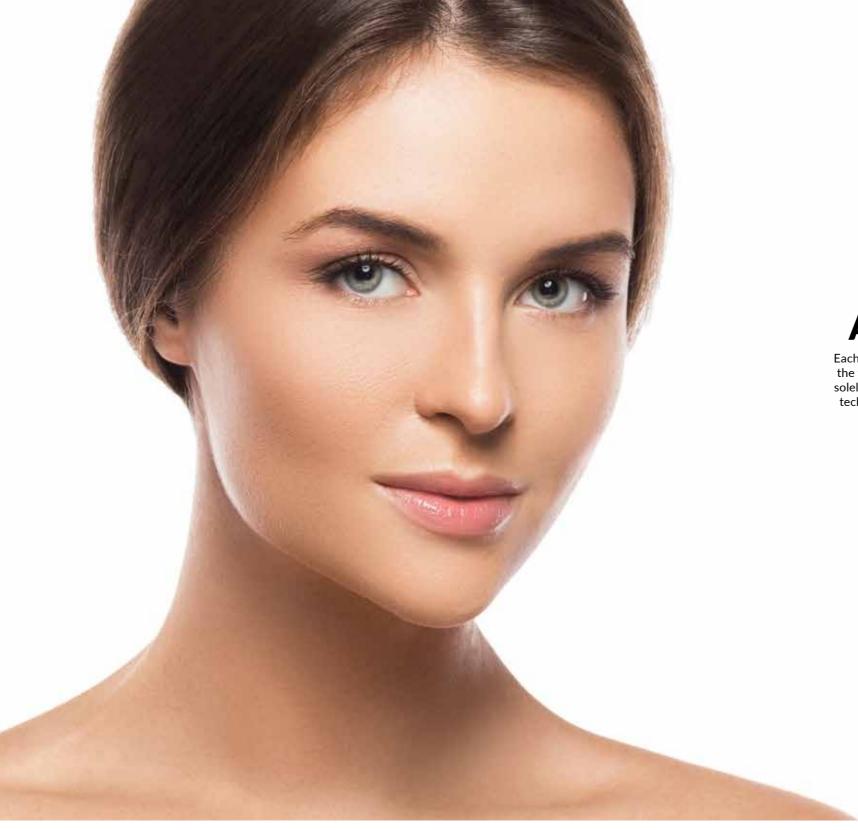

Imagine how your favorite fragrance turns into a unique form that you can touch and relish forever... How it blends into your skin, leaving a seductive, captivating scent on it. How it wraps you up like a delicate chiffon, caressing your senses. This is what RUBY cream perfume is like. The essence of luxury enclosed in the creamy texture.

An extraordinary marriage of exquisite fragrance notes, which is the source of exceptional feelings caressing all senses. Refined composition, where accords of jasmine, rockrose and cashmere wood are intertwined with the sweet aromas of vanilla and amber tree, only at the end revealing vivid notes of white oud, black musk and dry wood. Enchanting, alluring, tempting ... Feel it on your own skin. Thanks to the fact that the perfumes are in the form of a cream, they are extremely durable and long-lasting on the skin. Just a small amount is enough to feel the caress that awakens all the senses.

**TIP:** It is best to apply the perfume with your fingers on the so-called pulse points, i.e. where the blood pulsates and the body generates heat: on the inside of the wrists, the neck, behind your ears, in your cleavage, in the crook of your elbows and at the back of your knees. Then the perfume will fantastically develop its bouquet and stay on your skin for a long time.
